Dr Neil Archibald  
Consultant Neurologist  
South Tees Hospital NHS Foundation Trust

1620

Close

This year's Geriatrics4Juniors is a fully virtual conference. Meeting delegates, having interactive sessions and connecting doctors interested in geriatrics have been some of our favourite parts of previous face-to-face conferences.

This year is different but we are still hoping to re-create some of this using our online platform **SWAPCARD**. With this, there is the opportunity to engage in question polls during the live streamed sessions; with Q&A sessions after each talk and to connect with the speakers, the AEME team and other delegates during the day. We will be holding a live panel discussion, "**Ask the registrars**", over the lunchtime break so you can hear about an "average day" in the life of a geriatrics registrar and ask all your burning questions about being the Medical Registrar on call!

Finally, our **OPMentor** scheme is an opportunity for junior doctors of any grade who are interested in geriatric medicine to find some informal support with their career development. We have a network of geriatricians across the UK willing to provide advice on careers, CV building, specialty applications, audit & quality improvement projects, research, and information about working in their region. Please visit <http://aeme.org.uk/opmentor/>

To register for the conference, please visit <http://aeme.org.uk/g4j21/>

Please enter our poster competition - tell us about work that you've done to improve care for older patients and you could be our 'CotE Champion' for 2021! For more information, go to <http://aeme.org.uk/g4j21-posters/>
